Wanda,

This is email 6 of 8 that should be part our response to FOIA EPA-R2018-008499.

Please let me know if you have any questions on the above.

Thank you.

Bob

Hi Mindy - I don't recall if we discussed this or not, but we recently relayed to a Honeywell a concern that Gina raised about conducting a probabilistic risk assessment without having developed and received agency approval on a work plan for it as per the 1999 draft guidance on this at <http://www.epa.gov/oerrpage/superfund/programs/risk/rags3adt/index.htm>. Honeywell, however, is saying that probabilistic eco risk assessments are not uncommon and that EPA has approved them w/o requiring work plans before. Is this correct? Also, are you available for a conf call next week (sometime after Mon.) to discuss this further with DEC and Honeywell. If so, please let me know your availability so we can set up the call. Thanks.

Bob
